Version: 3.1
Revision Date: 09.04.2011

PRODUCT DESCRIPTION

Adi[®]E-THIN, a liquid dispersion for invert emulsion fluids to change the wetting characteristic of drill solid and reduce rheology that contributes by drill solid. The product is unique with its ability to be oil soluble. It is also compatible with most of the oil mud additives. It reduces yield point and low end rheology to improve flow.

TYPICAL PROPERTIES

Property	Specification
Appearance	Dark amber viscous liquid fluids
Specific Gravity	0.92 - 1.01
Temperature Stability	> 400 deg F
Flash Point	>200 deg F

FEATURES AND BENEFITS

- Cost effective
- Promote oil-wetting of solids in oil-based muds
- Liquid form makes it easy to use
- Used in all non aqueous fluids

APPLICATION

The product can be used in any non-aqueous mud with recommended concentration from 0.5 lb/bbl to 3 lb/bbl.

MIXING AND HANDLING

For specific instruction on handling please refer to the product MSDS

INTERNATIONAL SHIPPING REFERENCES

Transportation of **Adi[®]E-THIN** is not restricted by any regulatory agency.

PACKAGING

The product is packed in 55 gal drum

MSDS - Material Safety Data Sheet is available upon request
